

Global/Cultural Math Project Rubric

- 1) Using paper at least 8.5" x 11", create a poster from ***factual*** data that demonstrates the importance or relevance of math from a **global** or **cultural** perspective. This is NOT to be a poster about a **PERSON** or **OCCUPATION**, neither is it about math in everyday life! (40 points)
- 2) Include an original, creative title. (10 points)
- 3) Use at least 4 colors **effectively!** (15 points)
- 4) Use at least TWO **labeled** pictures. (15 points)
- 5) Be **NEAT!** (15 points)
- 6) First and last name must be written clearly and neatly on the back. (5 points)
